WHY ORIGIN

Why *ORIGIN*

"We don't just sell products. We develop know-how, then make it repeatable."

01 **French artisan know-how**
Recipes developed by professionals trained in the French school.

02 **Central Kitchen in Riyadh**
Daily production, compliant with Saudi regulations.

03 **Premium raw materials**
Couverture chocolate, French flours, house-made preparations.

04 **Consistent quality**
Validated recipes, regular production, permanent quality control.

05 **Controlled cold chain**
Fresh, raw, par-baked or finished-frozen products, as you need.

06 **A partner, not a supplier**
From finished product to made-to-measure: we adapt to your brand.

18 · EVENT

Event *Box*

Your event, turnkey: rent our box and trays to showcase your desserts, with or without our team.

01

Box and tray rental

A ready-to-install dessert space, filled with our pastries.

02

With service by our team

Our staff sets up, serves and clears during your event.

03

Without service

You handle the service; we provide the box, the trays and the desserts.

Price on request · hotels, weddings, meetings, launches

19

Entrust us with *your creation.*

You have the idea, the concept or the recipe. We develop it, make it and deliver it, in your name. ORIGIN's R&D team works for you, from the first prototype to regular production.

01

Your recipe, our Central Kitchen

From idea to ready-to-sell product: development, prototypes, validation and launch.

02

Your constraints, our expertise

Gluten-free, no added sugar, allergens, nutritional profiles, special textures and formats.

03

Your menu, always fresh

Limited editions, seasonal ranges, cost optimisation and production consistency.

On quotation · depending on scope and volumes

BEYOND THE CATALOGUE

The method *OPM™*

For any made-to-measure or white-label recipe, our R&D team follows OPM, the ORIGIN Product Methodology: eight phases so that a product is excellent, profitable and repeatable before launch.

00 **Strategic brief**
Brand, target, selling price and target food cost, constraints, volumes.

01 **Research & development**
Ingredients, first recipes and prototypes, several directions.

02 **Taste & visual validation**
Taste, texture, balance, finish: quality first.

03 **Cost optimisation**
Food cost, weights, yields, without touching the balance.

04 **Production engineering**
Recipe turned into a repeatable standard.

05 **Technical documentation**
Recipe sheets, process, SOPs, shelf life, control points.

06 **Commercial documentation**
Sales sheet, allergens, nutritional values, storage.

07 **Final validation & launch**
Last adjustments, ready to produce and sell.

Validated recipes, technical and commercial sheets, food cost, recommended price

BEYOND THE CATALOGUE

White *label*

Two ways to work under your name, depending on whether the recipe is yours or ours.

MODEL 1

Your recipe, our production

You entrust us with your recipe or specification. We make it in our Central Kitchen, with your formats, weights and label.

MODEL 2

Our recipe, your brand

You choose a recipe from the ORIGIN catalogue, or one developed for you by our R&D team, and sell it under your brand.

In both cases

SFDA compliance, technical and allergen sheets, validated shelf life, production consistency.

Terms

Minimum volumes, labelling and lead times: on quotation.
