ORIGIN B2B

Your customers never see your supplier. They taste your display.

That is the discretion we work in: making sure that what you serve is exactly what you meant to serve, one morning after another.

Every ORIGIN recipe starts with a gesture learned in the French school, then repeats identically in our Central Kitchen in Riyadh. We call it repeatable excellence.

Two hundred and twelve references, from the croissant at first service to the entremets at the last. And if what you need does not exist yet, we will create it in your name.

ORIGIN. A chef's touch, a house's consistency.
